

# Cable Fastening

Headliner.

## Customer benefits:

- Anti-noise properties, avoids rattling
- The flexibility of the tapes guarantees an easy covering process of the wiring harness on the headliner especially in curves
- Effective protection against abrasion of round and flat cables
- Faster production process compared to hot melt systems (no curing time)
- No risk of injuries for workers during assembly process compared to hot melt systems

## Products:

- DuploCOLL® 2100 FL (thickness 0,25 mm)
- DuploCOLL® 21003 FL (thickness 0,30 mm)
- DuploCOLL® 52055 (thickness 3,58 mm)
- DuploCOLL® 52065 (thickness 3,58 mm)
- DuploCOLL® 6002 PT (thickness 1,00 mm)

# Cable Fastening

Headliner.

## Design:

- Transfer rubber hotmelt (DuploCOLL® 6002 PT)
- Nonwoven carrier (DuploCOLL® 2xxx FL)
- PU-foam carrier (DuploCOLL® 52055 / DuploCOLL® 52065)
